

PRESS RELEASE

SC CREATOR EUROPEAN CONSULTANTS SRL

Bucharest, 18th June 2018

Our European project: INNOVATION FOR YOUTH EMPLOYABILITY & SELF EMPLOYMENT, framed in Erasmus+ Program, was approved by SC CREATOR EUROPEAN CONSULTANTS SRL by ROMANIAN NATIONAL AGENCY FOR COMMUNITY PROGRAMS IN EDUCATION AND PROFESSIONAL TRAINING under the Ministry of Education and Research of Romania.

In this project, together with SC CREATOR EUROPEAN CONSULTANTS SRL, are participating as partners: DIRECTORATE JUDETEAN FOR SPORTS AND YOUTH for BRASOV for Romania, NETT FORMACION S.L. for Spain, ARID STOWARZYSZENIE for Poland and ISTITUTO COMPRENSIVO DE LA CONOSCENZA LORENZO FUMANI for Italy.

The project aims to improve the quality of youth employment services within the transnational partnership networks over a two-year period. It is about building a European-wide database of relevant online tools for youth workers, employment agencies, social workers and volunteers who are actively looking for young people on a daily basis.

One of the specific objectives is the implementation of a mediation tool already developed and successfully implemented by the Spanish organization (NETT FORMACION SL - <http://nettformacion.com/>), namely TALENTic *, in three of the partner countries (Romania, Poland, Italy) - <http://www.talentic.net/>

Related activities: Presenting the TALENT platform in each country, translating and implementing the platform bringing together new technology and young people with IT training and skills.

* TALENTic.net is a digital talent community where young people can create an online CV in a creative way that includes digital skills, can distribute their portfolio to the digital world, contact other digital talents and access job offers: <https://youtu.be/WiUFLf2ABCc>

We want to replicate this example of good practice also in Romania and that is why we need the support of IT employers for enrolling companies in the database of job offers.

We invite companies to join our approach by declaring availability (which does not involve effort or expense) in connection with participation in the future platform - through a message at creatorcorporativa@gmail.com.
